CONFERENCE:

Finance for Refugees; making it work 7 September 2018

#FI4Refugees

Making it work: revenue models that aren't related to refugees

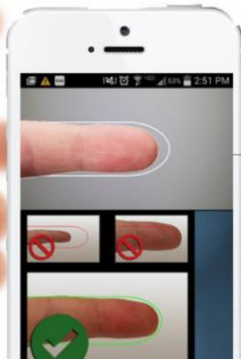

What if enrollment and verification in [bank accounts/refugee assistance programs/social benefit programs] could be done **from an Android phones?**

What if {petty cash/salary/per diems/training/stipend} **payments were always made to digital wallets?**

DIAMOND FORTRESS
TECHNOLOGIES

Place the finger in view of the rear facing camera.

THE FINGER GUIDE
Center the finger inside the finger guide. ONYX will then auto-focus and auto-capture the fingerprint.

beyonic

BUSINESS BEYOND CASH

Send and receive mobile payments from anywhere.

- 1) Out-of-the-box support in Uganda, Kenya, Rwanda, Tanzania, Ghana & Nigeria. Somalia coming in Q3 2018**
- 2) Manage payments to existing mobile money wallets the same your organization manages cash**
- 3) Organizations that work in fragile environments should use the solutions they want to deploy in normal operating environments**
- 4) Broadly applicable and extremely customizable (the key to Beyonic's ability to serve customers in fragile environments)**
